Section 1.1 The State of Wisconsin has passed legislation (Section 66.1001) that requires each unit of government to adopt a nine-element "comprehensive plan" to guide growth and development within their borders. The unit of government that makes up the Town of Three Lakes has, through action by its Town Board, created the "Three Lakes Community Planning Committee" (hereafter "Committee") composed of citizen volunteers (hereafter "Committee Members") and given responsibility for drafting or causing to be drafted the documents that will become the adopted Three Lakes Comprehensive Plan (hereafter "Plan").

Section 1.2 The Committee will a) develop a vision and mission for the town; b) conduct research in each of the mandated areas as well as any related areas which support them; c) gather background information in areas including, but not limited to, population demographics, zoning, and employment within Three Lakes and surrounding areas, and; d) investigate and inventory the housing, transportation, utilities and public facilities, agriculture, natural and cultural resource sectors of the Town and region. In the process of conducting its research, inventory, and investigation the Committee may implement or cause to be implemented projects and initiatives which the Committee identifies as key or critical stepping stones to the adoption of the Plan. Reports detailing the research, inventory information, and investigation, along with population and employment projections, will be prepared by Committee Members and adopted by the Committee. These reports will be the foundation for drafting of the Plan.
